

DISS YOUTH & COMMUNITY CENTRE HIRE RATES with effect from 1st April 2017

There are three tariff groups:

Community/Small Charity – for groups who make no profit, who are delivering a community service and/or whose income goes entirely into the running of that group. Also for private individuals booking the space for personal use. Examples might include art class, parent/toddler group.

Not for profit/Public authority – for those groups that are commercially structured (have money!) but are run on a not-for-profit basis. Examples might include NHS, Age UK, Housing Associations, Adult Education, local authorities etc.

Business/Commercial – for those groups/individuals who make (or intend to make) a profit from their activities. This would include companies, but also individual tutors/group leaders who draw an income from their activity. Examples might include local companies, health/fitness activity leaders, commercial slimming clubs such as Weight Watchers/Slimming World.
